

Welcome to the Atlanta Natural Health Clinic

Let us extend a warm personal welcome to you. Our goal is to give you the best chiropractic experience possible. We will explain everything to you in advance so you can fully understand your care and are able to make informed decisions regarding your health and your body.

PAPERWORK

We have tried to minimize the paperwork, however there are forms that must be filled out accurately for your health, legal, and professional reasons. Please complete the following forms. If you have questions, please ask.

ORIENTATION and PATIENT EDUCATION

To help you save money and get well faster, we encourage you to attend informative education classes. We invite you to bring a friend, someone who will be supporting your health objectives.

CONSULTATION

On your first visit you will meet with the doctor who will review your health history and ask about your health objectives. This will occur after a very short video presentation about the first visit.

EXAMINATION

Standard chiropractic tests will be performed along with a computerized nerve analysis to determine the cause (s) and severity of your problem. The results of those exams will help Dr. Hurd determine if he feels x-rays are necessary.

REPORT OF FINDINGS

Your exam findings will be studied and course of care designed for you. Dr. Hurd will explain what was uncovered, if chiropractic can help, and if so, how long it may take. This usually happens on your second visit.

FINANCIAL ISSUES

So that our attention is to your health care, all financial matters will be addressed clearly on our financial policy form. Please know that the most important thing to us is that you get what you need.

THANK YOU

We welcome you to chiropractic and will do our best to ensure a great experience. The following pages are designed to determine your need for care and help us serve you the best possible. Again, if you have questions, ask.
